## COMMITTEE CUTS TREASURY FUNDS

House Appropriation Body Fails to Follow Recommendations Under Budget Plan

\$12,696,827 LOPPED OFF

By the Associated Press  
Washington, Jan. 4.—Despite informal requests from the Administration urging close following by Congress of the estimates submitted by the new Budget Bureau, the Treasury Department appropriation bill reported today by the House Appropriations Committee disclosed a cut of approximately \$9 million.

The measure is the first of the regular supply bills to be completed by the committee under the new system provided in the Budget Act.

The bill, as reported carries a total of \$118,610,000 for expenses of the Treasury during the fiscal year beginning next July 1. This is \$12,696,827.38 less than the amount requested in the budget and \$17,770,401 less than the total for the current fiscal year. The measure probably will be taken up on the floor tomorrow.

For enforcement of prohibition \$9,250,000, becoming \$8,750,000 less than was requested, but \$1,750,000 more than was available this year. Prohibition Commissioner Hayes told the committee while the prohibition unit had 1139 field agents and clerks, an additional force of 550 field agents and 135 field clerks were needed.

Chairman Madigan said, "we shall provide for approximately seventy-five fewer persons than the number requested."

The committee eliminated all requests for salary increases, and reduced the estimates under public buildings approximately \$2,800,000.

\$50,000 for purchase of a site in Washington for a national archives building, \$1,000,000 toward construction of a vault for the Treasury, \$735,000 for repairs to public health service hospitals, caring for war veterans, which will be supplied, Mrs. Madigan said, under appropriations for the Veterans' Bureau, and \$72,000 for urgent medical terms with reference to the alleged infection "Walter's" held for the young matron.

In the testimony given by the husband, he asserted his wife's love for him ended after their honeymoon. Under cross-examination, Dr. Fitzsimons denied emphatically that he had failed to mention in that city, were introduced at the opening of the divorce suit here yesterday by Dr. Otto Leopold Fitzsimons, wealthy dental dentist, against his wife, Mrs. Marguerite Bullock Fitzsimons, said under-appropriation for the Veterans' Bureau, and \$72,000 for urgent medical terms with reference to the alleged infection "Walter's" held for the young matron.

Although but slight intimation was given of the line of defense, it has been rumored that it will be that of mistaken identity. References were made today to the fact that Mrs. Fitzsimons has a twin sister who greatly resembles her.

Washington, Jan. 4.—The House Appropriations Committee, in the Treasury Bill reported today, disallowed a request of \$25,000 for the Philadelphia Postoffice and Courthouse and cut the amount for running the Mint in fiscal 1923, \$72,000 under fiscal 1922. The director of the budget, in fact, had done most of the cutting, and the committee actually left him alone. The total recommended for the Mint is \$186,000, and the total allowed for the current year was \$158,600.

Supervising Architect Wetmore, of the Treasury Department, recommended the Postoffice improvements, costing \$10,000 for neoclassical treatment of the courtroom and \$15,000 for extension of the lookout system. He said the budget officers had approved this item because of the prevailing conditions.

"The Judge holding court hearings," he said, "states that the conditions are such that witnesses cannot be heard, that 25 per cent of the time the juries is consumed in having testimony read from notes, and that witnesses have to repeat much of their testimony. After Judge says this, he said the courtroom of the court was so bad that no one can be sure he has heard all the testimony, and that in one trial it was found after the verdict was rendered, that an important piece of testimony had not been heard, and in consequence a new trial was ordered."
